MONTHLY REPORT ON FAMILY PLANNING, MATERNAL & CHILD HEALTH, REPRODUCTIVE HEALTH AND NUTRITION SERVICES January 2021

Method-Mix for the month of January 2021

Preface

I am very much delighted to publish the monthly report of January/2021 of Management Information System (MIS) of Directorate General of Family Planning (DGFP). This monthly report displays our continuous effort to preserve quality data which can be used as a major tool kit for better management and evidence based decision making. The report consists of several information on demographic data associated with family planning, maternal & child health, reproductive health and nutrition services across the country. The report is a regular monthly issue designed to incorporate monthly service statistical progress at district and upazila level.

MIS Unit of Directorate General of Family Planning consists of three sub systems namely Service Statistics (SS), Logistic Management Information System (LMIS) and Human Resource Information System (HRIS). In the year 2011, MIS Unit has developed web-based software to collect, collate and compile service statistics from field level. Online reporting is already an established system at upazila level and we have a plan to scale up e-MIS report at all administrative tiers across the country under 4th sector program.

It is important to mention that this monthly report provides mainly service statistics information received from field workers, service delivery points and NGOs. Generally, the objectives of MIS are to develop and strengthen reliable information management system. We are hopeful that this report will help the users at all levels to compare and analyze the latest information on family planning, maternal, child and adolescent health.

Finally, I convey my sincere thanks to the personnel of MIS Unit who have made diligent effort to prepare this report in time. I cordially request all the users of this monthly report to provide their valuable suggestions and feedback (if any) through the e-mail address (dirmis@dgfp.gov.bd) for its further improvement.

SUMMARY

Introduction

Bangladesh is divided into eight administrative divisions: Dhaka, Chattogram, Rajshahi, Khulna, Barishal, Sylhet, Rangpur and Mymensingh. Each division is divided into several districts and each district into several upazilas. Each urban area in an upazila is divided into wards. Upazilas are divided into Union Parishads (UPs) and Poursobas. These divisions allow the country as a whole to be separated into rural and urban areas. Management Information System (MIS) has been operational under the Directorate General of Family Planning (DGFP) for a long time. The report of the Contraceptive Performance, MCH, Reproductive Health and Nutrition services is used to be published each month from MIS Unit on the basis of Service Statistics received from the field workers, service delivery clinics and NGOs. Erstwhile Family Welfare Register, however, is the principal source of performance statistics. This report is prepared on the basis of FWA Registers (9th Edition) and Clinic Report. Most of the FWAs visit their working area once in every two months. It is a continuous process. FWA register is modified/updated in every three years.

There is a reporting system to collect the information from the field. MIS Reporting Form-1 is filled up by the FWAs and submitted the same to FPIs. FPI fills up the MIS reporting Form-2 by compiling of all the FWAs (MIS Form-1) report and submits to UFPO office. MIS reporting Form-3 (clinical) is filled up by MO (clinic)/ (MCH-FP)/ (FW)/SACMO/ FWV and is submitted to UFPO office. NGOs of the respective area submit their report to UFPO office through MIS reporting Form-2 and 3 as their requirement. All the reporting Form-2 and 3 are compiled by UFPO office and filled up reporting Form-4 (union wise) and is entered in online web based software (SS). District FP Office reviews and submits that report. It provides information of contraceptive use status of eligible couples and different types of MCH, Reproductive Health and Nutrition services. MIS performance report is primarily used by different level of program managers and supervisors engaged in implementing the Family Planning, MCH, RH and Nutrition program in the country. Besides, different policy makers, decision makers, donor agencies, Development Partners, researchers and other users also use this report.

Family Planning Performance (CAR related):

Performance reports of January 2021 have been received from all the 64 districts of the country. During the month of January 2021 total numbers of eligible couple were found to be as 27646705 against 27659104 in the previous month. Performances of NGOs are also included in the report as reported by the Upazila Offices. A total of acceptors are 21711813 reported in the month of January '21 as against 21720881 in January '20. The Contraceptive Acceptance Rate (CAR) achieved at the end of the reporting month for six modern methods (Permanent Method, IUD, Implant, Injectable, Oral Pill and Condom) is 78.53% which was 78.53% in January '20. Method Specific Acceptors (Cumulative), Method Specific New Acceptors and Contraceptive distribution by Methods are shown in the summary sheet. It January be noted that the contraceptive acceptance rate is an estimate, based on the client contact and the status of contraceptive acceptance as reported by the field workers based on the entries made in the FWA register. The Contraceptive Prevalence Rate (CPR), on the other hand, is based on periodic surveys that are made on precise statistical procedures.

The acceptance rate is a tentative rate and varies from month to month because of reporting status and coverage. This rate is usually higher than the Contraceptive Prevalence Rate (CPR). CAR is generally used to monitor as a management tool 'on-going' program performance in the country. It is not so much used to evaluate the program impact or goals, which is done by periodical scientific surveys.

MCH Performance:

Performance of MCHTI, MFSTC, MCWCs and FWVTI-Rajshahi is also included in the report.

Clarification about the information of summary sheet, table-2 and table-3:

Method Specific Acceptors:

In the summary sheet, Method Specific Acceptors is shown based on the field workers' (FWA) visit of the reporting month and also the previous month. These are the cumulative figure which includes previous month's acceptors and reporting month's new acceptors collected by the field workers within their working areas.

Contraceptive distribution by Method:

In the summary sheet, Contraceptive Performance by Method is prepared based on the performance and distribution of the reporting month. These figures are actual performance of the reporting month which is not comparable with the information written in method specific acceptors.

Table- 9, Table-10 and Table-11

Performance shown in the table-9 and 10 is the actual performance of the respective month but the new acceptors shown in the table-11 January not be the performance done in the same month. It January happen that the new acceptors accepted method in the previous month but field workers had shown that case in the next month due to their rounding schedule. So the performance of table-9, table-10 will not be the comparable with the new acceptor of table-11.

Clarification about the information of MCH and Reproductive Health Services:

- Information shown against 'delivery' which were done in MCHTI, MFSTC, MCWCs, UHCs & UH&FWCs is collected through the MIS reporting Form-3. This record is only for DGFP concerned facilities. Deliveries conducted in District Hospitals, Medical Colleges, Private Clinics and performances in the City Corporation (partial) are not included.
- Information shown against the 'live births' conducted at Govt. MCH, DH, MCWC, UHC, UH&FWC, NGOs & Homes is collected by FWAs through field visit. Field workers visit their units monthly and they submit their reports in every month.
